

ALKALINE STEAM DEGREASER

DESCRIPTION

ALKALINE STEAM DEGREASER is a blend of selected alkaline salts and specialty surfactants, designed to remove grease and oil from a variety of substrates.

The substrates can vary from mild and stainless steels to aluminum and other alloys, to painted surfaces without damaging the substrate, providing the product is diluted according to directions.

ALKALINE STEAM DEGREASER when diluted as per dilution schedule is considered to be a quick break degreaser.

DIRECTIONS

Spray the affected surface with ALKALINE STEAM DEGREASER, allow to work, then flush away with water.

Note the water or system does not have to be hot or steam, but as with any chemical the process works faster when warmer.

Dilution guide 1 PART ALKALINE STEAM DEGREASER with X parts water	
General use	75-100 parts
Engine cleaning/degreasing	10-20 parts
Removal of Bond breaker on Tilt slabs	3-5 parts
Removal of Surface Cure R Curing Compound	3-4 parts
Boat / deck wash	50 parts
Painted surface degreasing	75-120 parts
Heavy jobs	3-5 parts

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre.

If swallowed do not induce vomiting. Give a glass of water.

If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY

ALKALINE STEAM DEGREASER is highly alkaline and should be handled only by personnel with gloves and eye protection as a bare minimum.

A Material Safety Data Sheet is available on request.

STORAGE

Store away from other chemicals and food.

PACKS

5L, 20L ,200L

ALKALINE DEGREASER - PDS August 2020

This Product Data Sheet (PDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this PDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Chemical House does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether in accordance with any advice, specification, recommendation, or information given by it.
